- Javascript,
- React.js

CAREER OBJECTIVE:

Detail-oriented Frontend Developer with a strong focus on building responsive, accessible, and high-performance user interfaces. Seeking to contribute modern frontend skills and best practices to a growth-driven team while continuously improving product quality and user experience.

WORK EXPERIENCE:

Frontend Developer (Freelance) – At-tanzeel Schools Ibadan

📅 2025

- Developed a modern, responsive student management web application using React, enabling efficient handling of academic records and administrative workflows.
- Built interactive features for student registration, score input, result management, and academic performance tracking.
- Ensured a clean, responsive UI, optimized for desktop, tablet, and mobile devices.
- Maintained code quality and consistency using ESLint, following modern React best practices.

Frontend Developer (Freelance) – Lintelz Engineering Limited

📅 2025

- Implemented a clean, professional UI/UX optimized for desktop, tablet, and mobile devices, ensuring consistent performance across screen sizes.
- Built reusable React components and structured pages for About, Services, Projects, and Contact sections.
- Optimized website performance and load speed through Vite's build optimization and efficient component design.
- Applied SEO best practices to improve search engine visibility and online presence.

Frontend Developer (Freelance) – Painless LMS Portal

📅 2025

- Designed and developed a full-featured Learning Management System (LMS) using React and Vite, delivering an intuitive learning experience for students, instructors, and administrators.
- Developed interactive learning modules including course players, quizzes, assignments, and progress tracking features.
- Integrated Axios for API communication and Prism.js for syntax highlighting in coding lessons.
- Structured scalable React architecture with reusable components, context providers, and modular page organization.
